

12th March, 2018

**Important Instruction to all Tubular Fluorescent Lamp Manufacturers
& Permittee**

Superseding notification of Tubular Fluorescent Lamps has been published vide S.O. 1033 (E) dated 9th March, 2018. This notification will supersede the existing notification.

It may please be noted that the existing energy consumption standards will only be applicable till 30th June, 2018 i.e. w.e.f. 1st July, 2018, the new energy consumption standards will come into effect which means that all the tubular fluorescent lamps with dimensions ranging from 1100 mm to 1500 mm will be covered under the mandate of star labelling program of TFL.

In the view of above, kindly start the process of getting star label approval for the entire range of tubular fluorescent lamps being manufactured by you which are covered under the scope of program.
